**InfoCision to Bring Telecommuting Positions to Fostoria**  
*Company Hopes to Add 100 Workers to Program by Year's End*

**Fostoria, OH, August 2, 2007-** Today, August 2, InfoCision Management Corporation announced that it is bringing telecommuting positions to Fostoria at an announcement on the steps of city hall.

InfoCision, the second largest privately-held teleservices company, launched its work-at-home program two years ago and is looking to expand it by hiring individuals interested in a serious career. Employees have set schedules, similar to phone representatives in one of the company's 30 call centers. InfoCision works with state and local rehabilitation agencies to provide assistance to work-at-home employees with physical limitations. The company is looking to add 100 full and part-time work-at-home employees by the end of the year.

The company plans to hold interviews for these positions at the Best Western Fostoria Inn & Suites at 1690 North Countyline Street on Thursday, August 9.

Some of the requirements to telecommute include owning a computer that meets the following requirements: A 17-inch monitor or one with resolution of 1024 x 768; DSL or cable high speed internet access, Windows 2000 or XP, and anti-virus and anti-spyware software. In addition, individuals need to have a valid e-mail address and a land-line home phone. **For additional information or to schedule and interview, call 1-800-210-6269.**

In addition to expanding its work-at-home program, InfoCision will be adding approximately 650 jobs within Ohio in the next 12 to 18 months by expanding many of its physical locations.

InfoCision, which has call centers located throughout Ohio, Pennsylvania and West Virginia, is celebrating its 25th anniversary in 2007. The company was chosen as the sixth best employer in Ohio by the state chamber of commerce in 2007 and was named 2006 Employer of the Year in Ohio by the Governor's Council on People with Disabilities.
